This is to certify that Ms Trupti Doshi, Architect and Integrated Sustainability Engineer, has given a public lecture at the School of Architecture of the Technical University of Crete TUC in Chaniá.

Her lecture on Architecture & Sustainability, given within the context of the 2nd year design class on 18th September 2017 in the early afternoon at our School, was attended by students of all years and academic staff. It was received very well, and gave great insights into her ideas and work as a Designer and a practising Architect.
